MEMPHISANS SAW HISTORIC PLACES

Drs. Mason, Anderson and
Cooper Tour France and
Start Home.

Three Memphis physicians, probably en route home on army transport after active service overseas, with the American forces in base hospitals in France, have had the unique experience of visiting numerous battlefields made famous by the world war struggle while taking their ease in a magnificent automobile belonging to an American major-general, according to letters received by relatives of one of the physicians, Dr. Robin F. Mason, of 1861 Vinton avenue. The other physicians are Dr. Ernest L. Anderson, of 3511 Summer avenue, and Dr. Arthur Cooper, of Carr avenue. All have been over there for several months.

Dr. Mason, now a captain in the medical corps, having left Memphis with Dr. Battle Malone's unit as a lieutenant, writes to his mother, Mrs. Watson Mason, of Vinton avenue, of their trip as follows: "This is the first opportunity to write to you for days. Thursday, Jan. 1, Dr. Cooper, Anderson and I went away and got back the evening of Jan. 28. We took in Verdun, Toul, Lunenburg, Nancy, Metz, Lunelle, St. Mihiel and several of the smaller places. Saw miles and miles of Hun trenches, the citadel of Verdun, Hill 304, about which 'Nach Verdun' was written, and so many things of interest that I'll have to see you to tell you about it. We traveled in a brand new Cadillac eight, belonging to Gen. Bullard. I will not attempt to describe anything as I may beat this letter home. We have just received orders that we will be sent to a base hospital probably at Nazaire, within 15 hours.

We are all torn up packing. Are sleeping in wards, as we had to give up our quarters to the incoming unit. So don't expect much mail from me. This letter was dated Jan. 21 and was written from base hospital No. 15. Another letter dated Jan. 22, written from the same hospital, informed Dr. Mason's parents that the captain was to leave there Jan. 24 for St. Nazaire. Later advice from Washington have indicated that Dr. Mason, with his unit, sailed from the French port for America about Feb. 1. It is thought that Drs. Anderson and Cooper are with him.

QUICK WORK ONLY WILL SAVE NEAR EASTERNERS

NEW YORK, Feb. 18. (Sp.)—A cable sent by Herbert C. Hoover states that the most heroic effort and sacrifice will have to be made by the friends of the Armenian and Syrian sufferers if they are to be saved from starvation and restored to their homes.

The message from Mr. Hoover is as follows: "The plight of Armenia and Syria is especially distressing because everything that is done for these peoples is sheer charity, there being no established governments to give obligations payment. Following the receipt of this cablegram there came another dated Feb. 15 from Maynard Elmer Arnold, who is dispensing relief for the committee in and around Tiflis, where there is much destitution. The committee is given below.

"Tiflis, Feb. 12, 1919.—The British military authorities in the Caucasus have option of the purchase of 2,400 tons of rice which can be brought to Baku at once and shipped to any part of the Caucasus. Will you authorize us to draw on you for \$1,500,000 at once to purchase the rice? This is the most available food supply in the Caucasus, and unless we can get it at once thousands of people looking to us for help will die of starvation. The option must be decided at once, as the other bidders for the purchase of the rice.

GERMAN SOLDIERS THREATEN STRIKE

BERLIN, Feb. 18. (By the Associated Press).—The soldiers' council at Münster, threatening the whole Ruhr industrial district, threaten to call a general strike today if the government does not accede to the demands of the council formulated at a conference held at Essen. The trouble is due primarily to action of the general in command of the Seventh army corps in dissolving the council's council at Münster because of the council's antigovernment attitude. The Ruhr district soldiers called a central conference at which it was decided to demand the reinstatement of the Münster council, the removal of the commander, Gen. von Watten, and his officers, and their trial and punishment by a court to be established by the district soldiers. The immediate withdrawal of all government troops in the district is also demanded. The conference named a committee to prepare defensive measures in the district and has retained as hostages two officers who attended the conference as representatives of Gen. von Watten. The councils in the Ruhr district are virtually all in control of the Spartacist or the radical independent socialists.
